DETAILED ACTION

1. This action is responsive the amendment received on May 14, 2009.

Claims 35-41, 44-45, 47-50, 52, 54-66, 67-73, and 83 are pending further examination.

After further review of the claims and the applicant's remarks it becomes apparent that the application is directed towards multiple distinct inventions..

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 35-41, 44-45, 47-50, 52, 54-55, 67-69 and 83 are directed towards network resource access controlling, classified in 709, subclass 229.

II. Claims 56-66 and 70-71 are drawn to method of updating keys, classified in class 709 subclass 226.

III Claims 72-73 are drawn to expiry of a verification protocol, classified in class 709 subclass 230

The inventions are distinct, each from the other because of the following reasons:

Subcombination-Usable Together

3. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as network resource access controlling. Invention II has separate utility such as updating keys. Invention III has separate utility such as expiry of a verification

protocol. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
